BOTTER
TRAVEL AI CHATBOT

THE PERSONAL AI AGENT YOUR TRAVELERS NEEDS

BOTTER Is your go-to chatbot option if you're seeking to provide a seamless, engaging and automated communication solution to your customers.

Typical trip reservation for a customer heading to a travel agency to book a flight or reserve a hotel is long gone, adapting digital channels now to cater to your traveler needs now is crucial.

With **BOTTER**, you will be able to redefine your travelers' experience by assisting them with expert travel advice, whether it's a flight ticket best suited for their pocket, a hotel booking that accommodates their stay with pleasure, or simply check their flights' statuses with round the clock response and availability.

What makes **BOTTER** unique, is that it's powered by a strong frame-work designed to build a more accurate chatbot with customer-centric UX design.

HOW BOTTER CAN HELP YOU

- **Booking Agent** - Provide your passengers & travelers a seamless experience & stimulate a real-time booking human-like agent assisting them to buy and change their reservations.

- **Travel Updates** - Assist travelers with all trips details such as flight schedule, gate number, location in real time, and much more.

- **Personalized Marketing Campaigns** - Keep your passengers engaged, draw the attention of potential customers, and provide them with expert trip advice.

- **Check-in Assistant** - Take your customer experience to the next level by enabling your travelers to check-in through a conversational interactive chatbot.

- **Customer Care & Feedback** - Enrich your travelers' and customer care agents experience thanks to the engine that keeps learning from the customers' frequent records and preferences.
