

GOVERNMENT AI CHATBOT

THE INTELLIGENT AI PUBLIC AGENT

BOTTER is your go-to chatbot option if you're seeking to provide a seamless, engaging and automated communication solution to your customers.

The number of daily public inquiries and requests can be huge, providing a seamless citizen experience and utilizing the e-gov services to the most is what matters.

BOTTER enables governmental entities to provide a unique experience to citizens starting from collecting citizens' feedback to facilitate their paperwork in different sectors, such as the public health sector, the traffic department, and many more, providing them with 24/7 online support.

HOW BOTTER CAN HELP YOU

PUBLIC SELF SERVICES

Provide the public with a seamless self-service experience and range of options provided by the e-gov portal, stimulating a public AI agent.

UTILITY SERVICES

Allow the public apply for new utility services, as well as view, manage and pay their bills.

E-GOV REQUESTS

Provide the public with e-gov related documents and requirements.

IMMIGRATION SERVICES

Fulfill various immigration services - such as e-visas and issuing a passport - providing your tourists and citizens with a seamless experience

PUBLIC HEALTH SERVICES

Help and assist your patients with all the public documents they need and inform them with the nearest hospital/health provider.

Hi 🙋

My name is BOTTER,

How can I help you today?
