

INSURANCE CHATBOT

YOUR INTELLIGENT POLICY ADVISOR

BOTTER is your go-to chatbot option if you're seeking to provide a seamless, engaging and automated communication solution to your customers.

According to Juniper Research, chatbots will have a highly disruptive impact on insurance claims management, leading to cost savings across motor, life, property and health insurance of almost \$1.3 billion by 2023. This represents a \$300 million increase over 2019.

BOTTER acts as your customer's very own policy advisor, providing assistance to your customers 24/7, and boosting your organization's revenues & profitability.

What makes **BOTTER** unique is that it's a strong solution designed to build a more accurate chatbot with a customer-centric UX design.
